

IFOAM EU Company of the month
Information requested for use on the IFOAM website

Company Profile

Golden Temple Natural Products is an organic spice and herb tea business. The company sells a range of over 40 blends under its YOGI TEA® brand and each tea is created to promote positive health and vitality.

Founded in 1972, the YOGI TEA® brand was originally inspired by a master of Kundalini yoga who taught the principles of Ayurveda and its use of spiced teas. As part of this, responsibility and respect for the environment, and a commitment to its preservation, have always been supporting pillars of the company's philosophy.

In the years that have passed since the brand was launched, YOGI TEA® has become a pioneer within the wellness market, especially among health-conscious people who attached importance to high-quality, organic products.

Today YOGI TEA® sources more than 70 fully certified organic ingredients from over 20 countries and its range of teas is available across Europe, the United States, Australia and beyond.

Product of the Month

Yogi Tao Tea 'Lotus' is part of a special selection in which Chinese herbal wisdom is blended with the Indian science of life to celebrate the secret taste of flowers.

Across Asia, the lotus blossom is a symbol of purity, fidelity and creativity and this tea promises a refreshing sweetness that can be enjoyed every day to bring joy and enthusiasm.

Yogi Tao Tea 'Lotus' combines extract of the sacred lotus flower with lime and peppermint to create a deliciously full bodied organic infusion.

In praise of IFOAM

"Our long-term commitment to organic agriculture and the ideals that it represents ensures that we share many values with IFOAM, its members and their licensees. The IFOAM EU Group not only works with its members to protect standards and to promote organic excellence, it also provides a valuable forum for sharing ideas and information that helps to underpin our success across Europe and beyond."

Keith Bearden, Managing Director European Operations, Golden Temple Natural Products GmbH
